

**SECRET**

OSA-4249-63

19 AUG 1963

MEMORANDUM FOR: Assistant Director for ELINT  
SUBJECT: Request for JRC Book  
REFERENCE: OEL-1540-63, 13 August 1963

1. The subject book was obtained from JRC primarily to effect an immediate response regarding urgent queries from the offices of the DCI, DDI, and the Agency Watch Office on a twenty-four hour basis. The OSA Control Center is responsible for answering certain questions pertaining to all DOD and Agency reconnaissance flights, tracks, and missions. In addition, the subject book is reviewed by the DD/S&T, and pertinent comments are forwarded to the DCI to be surfaced at the Special Group when applicable.

2. In view of the obvious necessity for having the book immediately available at all times at one focal point in the Agency, the book should not leave the immediate vicinity of the OSA Control Center. OSA is prepared to welcome one or two persons at a time to make use of the subject book in the OSA Control Center vault.

3. Your understanding of the problems regarding this matter is appreciated. Please feel free to discuss this subject with C/ID/OSA at any time.
